Draft Final Close Out Report

Operable Unit No. 7, Sites 1 & 28

Dear Mr. Stevens:

The Environmental Protection Agency (EPA) has completed its review of the above subject document. There are a couple of minor comments that need to be addressed.

1. A paragraph should be added explaining the difference between "Long Term Monitoring" and "Confirmatory Sampling" within the text, and
2. In Figure 1-2, box 1998 A, TCE should be documented as below the NCWQS.

Once the corrections are made the document can be submitted as final. If there are any questions, I can be reached at (404) 562-8538.

Sincerely,

A handwritten signature in dark ink, appearing to read "Gena D. Townsend", is written over a horizontal line.

Gena D. Townsend
Senior Project Manager
